• Power Point Presentations

• Signatures

• Word, PDF and Excel Files

ORGANIZE

Organize brings order to your company's valuable digital assets, preserving them in a secure, easy-to-use online library and facilitating efficient sharing.

Save time and the frustration of searching among piles of CDs and multiple hard drives.

Avoid the expense of re-creating assets you have already paid for.

Create a powerful resource for collaboration and sharing.

Order, Please!

Your company has countless marketing assets that were costly to create and may be impossible to replace. Digital files, ranging from photos and videos to logos and ad layouts, have ongoing value to multiple users – if they can be located. **Organize** brings thousands of files together in a central location, organizes them for easy retrieval and provides instant online access to authorized users.

Controlled Access

Your assets are organized into directories and hierarchies that provide easy access with precise control. Virtually every feature can be turned on for a specific account or user group so you can tailor permission levels to the broadest range of internal and external users. Complete control over access, modification and usage ensures that your company's assets will be protected. Powered by a state-of-the-art, Level 4 data center and protected by robust backup processes, **Organize** ensures the ultimate in data security and integrity.

Fully Expandable

Organize puts the sum total of your company's marketing assets at the fingertips of those charged with ordering reprints, updating collateral or creating new campaigns. Fully expandable, it can start small and grow with your company.

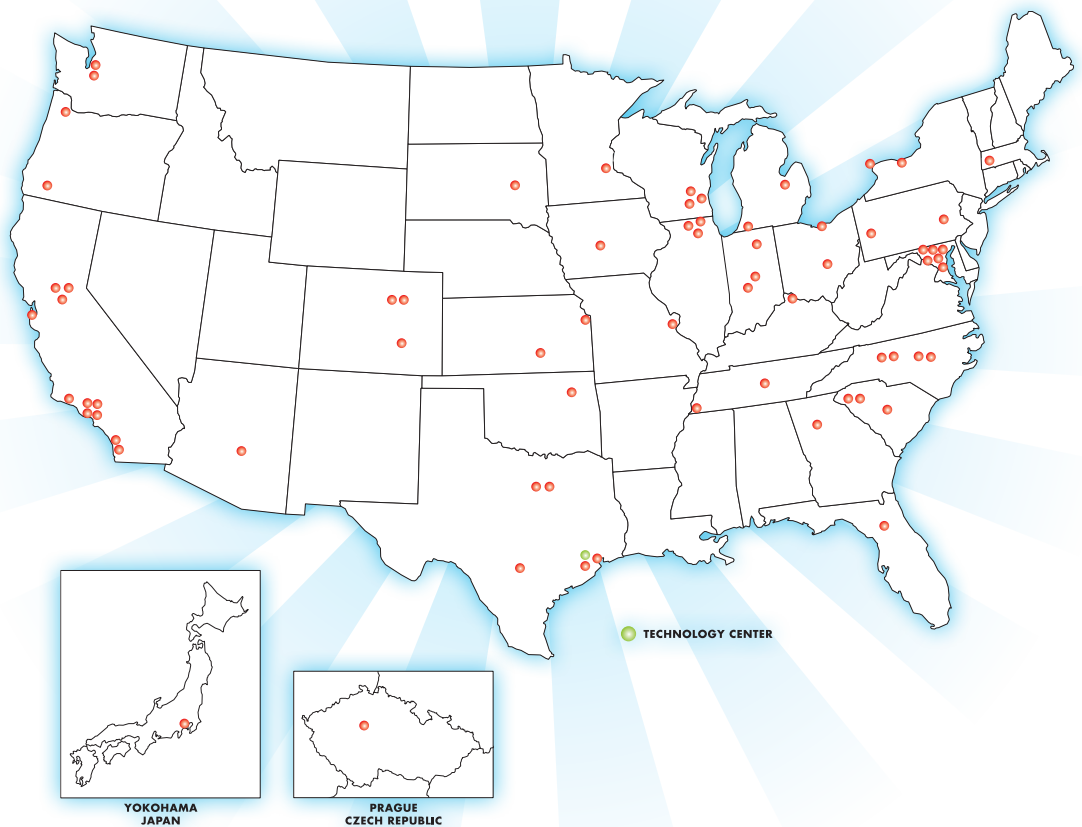

At Your Service

Our business is to create value and deliver a superior customer experience. Each **Organize** solution comes with all of the little extras that make it work best for you. We back our leading-edge solutions with the industry's best technology team to ensure flawless quality and seamless project execution.

You need to make
the most of the assets
you have paid for.

DIGITAL

With an unmatched footprint of 70 printing, fulfillment and technology facilities, including the world's largest and most advanced integrated digital production capabilities, we have the unique ability to provide turn-key solutions, flawless quality and exceptional value.

WE PUT IT ALL TOGETHER FOR YOU
